PENELOPE
ARMCHAIR

to imagine colour

penelope armchair - to imagine colour

designer's own words:

My project comes from my experience with using colours. I imagined an armchair for a waiting room above you can sit and imagine colour in every form, reflection and weave. Every night you can destroy it, every day you can weave it again in a new form. A long tube of steel gives shape to an armchair whose seat is made of interwoven ropes or threads of different materials, fabrics and colours.
